

iFoundIt Safe Meet-Up Guidelines

We have created this guidance to try and make this process as safe as possible for all parties involved. Please use this guidance.

1

Neutral Locations - Only agree to meet in public locations if you feel happy to do so (cafes, shops, transport hubs). Avoid isolated or residential areas.

2

Be Privacy Conscious - Never share or request personal home or work addresses to meet.

3

Verification - If possible, the Finder should ask to see the iFoundIt loss report sent to the Item Owner before handing the item back to them.

4

Friends & Family - Tell someone about the meetup details, and if you feel you need to, have someone accompany you.

5

Time Restrictions - We advise meeting during office hours (9-5pm).

6

Emergency Contacts - If at any point during the meetup you feel unsafe, dial 111. In extreme circumstances dial 999.

7

Clear Instructions - Include step-by-step instructions on how the meetup should occur. Specify exact location, dates, times clearly in your messages.
